WEEBLY WEB SITES: fast, free, fun!

Why use Weebly? It's easy, it's free, and you get great-looking web pages in minutes!

GETTING STARTED:

1. Go to www.weebly.com
2. Sign up for an account by entering a user name, email, and password.
3. Create a site, choose a theme, add elements (photos, titles, paragraphs, etc.).
4. Add pages. Say yes to "Show in navigation" so pages are linked from your home page.
5. Edit your text, add links, attach files, and so on.
6. Add some fun features: maps, video, discussion forums, games, etc.
7. Click the Publish button. Decide on a URL (address for your web site). Select fill-in-the-blank.weebly.com for a free site – or pay for your own domain name without "weebly" in it.

HOW TO USE WEEBLY:

-- Design a web site for your library
-- Make assignment pages for collaborative lessons
-- Teach teachers to create their own personal pages
-- Teach students to make web sites instead of PowerPoints
-- An all-in-one-place portal for important class/grade-level projects
-- A book discussion forum for sharing photos, videos, reviews, and more!
